Yes, ~~I'm~~ my copy of "Farewell America" indirectly came from Skolnick. He claims book is not available from any other source and that G stops its importation. Skolnick gets $8 a copy.

Comment from my source: Skolnick now frequently attacks CIA which is a safe thing to do, ~~as~~ especially if the information ~~is~~ dispensed by him is ~~is~~ incorrect. -- You know the Russian proverb "The oxen spoke to the painting ... but the painting did not reply."

Enclosed (for eventual return) should give you an idea of his current activities.

Do you have or want WHO's WHO IN CIA?

Best, ED
